-

Installation

- 1
 - A: Connect the brown 3.5 mm plug of the satellite speakers to the "SATS OUT" connection at the rear of the subwoofer.
 - B: Connect the green 3.5 mm plug of the subwoofer to the "LINE OUT" connection on the PC or the headphones connection on a portable music player.
 - C: Insert the plug of the subwoofer into a plug socket.
 - D: Connection for the headphones.
-

Volume control

- 2-3 See figures 2 and 3.
-

Tips

-  To prevent vibrations, place the subwoofer on the floor instead of on a desktop.
-  You can change the sound characteristics by using an equalizer in the software of the music player, such as Windows Media Player.
-  No sound?
 - Is the On/Off LED lit? Check whether power cable has been connected.
 - The cable from the subwoofer to the PC is not connected to the green output on the sound card in the PC.
 - Low volume - see volume control.

If you have any problems, go to www.trust.com/13797 for FAQs, drivers and manuals. (British model: www.trust.com/13798)

Safety

- Do not open or repair this device.
- Disconnect the power plug from the mains supply before cleaning the device. Do not clean the device with a liquid cleaner or a spray. Use a dry cloth to clean the device.
