UK

Installation

- 1 PC on
- 2 Connect USB
- 3 Status LED lights (Finish)

Use

- Connect to Internet and install Skype before use.
- Download Skype: www.trust.com/skypedownload.
- How to install and use Skype: www.trust.com/skypeguide.
- Other available language: go to www.trust.com/skypeinternational.

Make a speed-dial

- Callers must be on each other's Skype list.
- Repeat 4-5 for convenience but use different numbers for different contacts

- 4 Open Skype and select a contact
Right click on the contact and select "Assign Speed-Dial"
- 5 Assign a number, for example '21'
- 6 Press 21 to call the contact

Reminder **General usage**

- To make call to regular phone number, it's required to buy SkypeOut credit.
- Press '00' is same as press '+'.
• This device is installed as a USB Audio Device in your system, like a sound card. If you would listen to music using your system sound card, please either unplug this device or change the audio setting to the system sound card. It may be required to re-open the media player afterwards.

FAQ

- Usually the device will be default once it's plugged in. If not, please open Skype, Tools-> Options -> Sound Devices. Then select "USB Audio Device" from the pull-down list for all audio options.

If you have any problems, go to www.trust.com/14482 for FAQ, drivers and manuals.**Safety**

- Keep this device away from liquids, such as water.
- Do not open or repair this device.

- This device meets the essential requirements and other relevant conditions of the applicable European directives. The Declaration of Conformity (DoC) is available at www.trust.com/14482/ce.
